

Jackson Market Link Pro[®] Advisory II

A registered index-linked annuity (RILA) is a long-term, tax-deferred vehicle designed for retirement. It is subject to investment risk, its value will fluctuate, and loss of principal is possible. A RILA, which is an insurance contract, allows you to choose how you want to prioritize growth opportunities while managing the amount of loss you may assume. Earnings are taxable as ordinary income when distributed. Individuals may be subject to a 10% additional tax for withdrawals before age 59½ unless an exception to the tax is met.

Jackson Market Link Pro Advisory II

Standard contract provisions

Withdrawal charges*	None
Maximum issue age	85
Latest income date¹	95
Minimum single premium	\$25,000. Subsequent premiums not allowed.
Market value adjustment (MVA)^{†, 2}	Jackson [®] applies an MVA to certain amounts withdrawn or annuitized during the first six contract years. The MVA may result in an increase or decrease to amounts removed from the contract.
Free withdrawals^{3, 4}	Every contract year, you may withdraw up to the greater of earnings or 10% of remaining premium, free of MVA. An interim value adjustment may still apply.
Required minimum distribution (RMD)^{4, 5}	Jackson Market Link Pro Advisory II is RMD friendly, so qualified contracts may not be subject to MVA. An interim value adjustment may still apply.

Growth and protection options

(see your financial professional for options and availability)

Index account option term(s)⁶ 1-year, 3-year, or 6-year terms.	Index(es) Premiums may be allocated to index options, including the S&P 500 [®] , Russell 2000, MSCI EAFE, MSCI KLD 400 Social, and MSCI Emerging Markets indexes.	Rate(s)[†] Rates are guaranteed [§] for each index account option term. Please see your financial professional or visit jackson.com/RILA for current rates.
Crediting method(s)** Multiple crediting methods offer ways to calculate potential index-linked returns. You may select any one, or a combination, of these methods and have flexibility to change selections and allocations penalty-free at the end of each index account option term.	Buffer(s) and floor(s)** A buffer protects from loss up to a stated percentage—10% or 20%. ⁷ A floor protects from loss after a stated percentage— -10%. ⁸ The level of protection available will depend on the crediting method selected.	Fixed account⁹ Premium allocated to the fixed account earns interest at an annually renewable rate never less than the fixed account minimum interest rate (FAMIR) of 0.15% to 3%.
Performance lock Ability to reallocate intra-term or at the end of your term from an index account option to a fixed account option.

- ¹ Qualified plans may require an earlier distribution. The latest income date under this contract is the owner's age 95, which is the required age to annuitize or take a lump sum.
- ² A market value adjustment (MVA) will be applied to certain amounts withdrawn, or annuitized during the first six contract years. The MVA may result in an increase or decrease to amounts removed from the contract.
- ³ Each contract year, the greater of 10% of premium still subject to MVA determined at the beginning of the contract year or earnings. Free withdrawals not taken in a contract year are not available in future contract years.
- ⁴ All withdrawals, including automatic withdrawals, required minimum distributions (RMDs), and free withdrawals, apply to the total amount withdrawn in a contract year and are subject to an interim value adjustment. The RMD withdrawal must be for this contract only and you must specify that the withdrawal is an RMD. Partial withdrawals during the MVA period reduce the contract value on a dollar-for-dollar basis and may be subject to applicable MVA. For more information on the interim value adjustment, please see the contract prospectus. Taxes may apply to any withdrawal you make.
- ⁵ The RMD for this contract may be taken from a qualified Jackson Market Link Pro Advisory II contract free of MVA, even if the amount exceeds the 10% free withdrawal provision. The RMD withdrawal value is based on the contract value. If a withdrawal taken before the sixth contract anniversary exceeds the greater of the RMD requirement or the free withdrawal benefit, the excess amount withdrawn will be subject to MVA.
- ⁶ The availability of each index account option term varies by firm and is subject to change. Jackson reserves the right to suspend the availability of an index account option term at any time.
- ⁷ A buffer will protect from loss up to the stated percentage. During the index account option term, if the index declines more than the stated buffer, you will incur a loss.
- ⁸ A floor will protect from loss after a stated percentage. During the index account option term, you could incur a loss up to the stated floor percentage and are protected from further loss beyond the floor.
- ⁹ The fixed account value will never be less than the fixed account minimum value. The fixed account minimum value is equal to 87.5% of premium allocated to the fixed account, accumulated at the fixed account minimum interest rate, less any withdrawals, applicable charges/adjustments, and taxes.

- ¹⁰ If the oldest owner's age when the contract is issued is between 0 and 80 the death benefit is equal to the greater of the current contract value or premiums paid into the contract adjusted for any withdrawals incurred since the issuance of the contract. If the oldest owner's age is between 81 and 85 when the contract is issued, the death benefit is equal to the current contract value.
 - ¹¹ An add-on benefit that provides income for the length of the designated life and/or covered lives may be available for an additional charge. The amount of income that this benefit may provide can vary depending on age, when income is taken, and how many lives are covered when the benefit is elected. Certain state variations may also apply. The cost of this benefit may negatively impact the contract's cash value.
 - ¹² The total annual charges are calculated based on the guaranteed withdrawal balance after interest is credited on the contract anniversary. On each fifth contract anniversary following the effective date of the endorsement, the company reserves the right to increase the charge subject to the maximum increase amount and maximum benefit charge stated in the contract supplemental data pages. If the charge percentage is increased, a notice will be sent to the owner prior to the contract anniversary.
