

Perspective Advisory II[®]

A variable annuity is a long-term, tax-deferred investment designed for retirement, involves investment risks, and may lose value. Earnings are taxable as ordinary income when distributed. Individuals may be subject to a 10% additional tax for withdrawals before age 59½ unless an exception to the tax is met. Add-on benefits are available for an extra charge in addition to the ongoing fees and expenses of the variable annuity.

Perspective Advisory II					
Standard contract provisions					
Withdrawal charges*	None				
Core contract charge†	0.45% (The charge is reduced to 0.40% for contracts with quarterly anniversary values of \$1 million or more.)				
Annual contract maintenance charge	\$30, waived for contract anniversary values or surrender values of \$50,000 or more				
Investment options ¹	More than 100. ² Expense range: Gross 0.26% to 2.14%, net 0.09% to 2.14% as of October 21, 2024				
Maximum issue age	85				
Maximum annuitization age	95 (Age 95 is the required age to annuitize or take a lump sum. See the prospectus for information regarding the annuitization of a contract.)				
Minimum initial premium	\$25,000				
Death benefit ³	Contract value only unless an add-on death benefit is elected for an additional charge.				
Included benefits (available at no additional charge)					
Investment automation ⁴ The power of ongoing investing with dollar-cost averaging.	Penalty- and tax-free transfers ² Transfer between investment options up to 25 days per year.	Automatic rebalancing ^{4, 5} Ensure that you're invested the way you want.	Systematic withdrawals Choose how to receive your income.	Transfer contract to spouse ⁶ Surviving spouse may choose to continue and build contract.	Control your legacy ⁷ Select how and when to distribute to your beneficiaries.
Add-on benefits ⁸ (annual benefit-based charge)					
Living benefits ⁹	Flex Suite of living benefits—Please contact your financial professional for options, availability, and charge information.			MarketGuard Stretch ^{®9} —1.11% AutoGuard ^{®5} —0.87%	
Add-on benefits ⁸ (annual asset-based charge)					
Death benefits ¹⁰	Return of premium death benefit—0.20% Highest anniversary value (HAV) death benefit—0.45%				
Fixed account option					
Fixed account option ¹¹	1-year guaranteed period The premium earns interest in a fixed account at a rate never less than the fixed account minimum interest rate (FAMIR) (1% to 3% depending on the five-year Constant Maturity Treasury rate). The FAMIR may be redetermined once a year in January on the contract anniversary date. Jackson [®] reserves the right to restrict transfers to and from the fixed account option.				

* All or any portion of the contract may be withdrawn at any time prior to the income date. For contracts without a guaranteed minimum withdrawal benefit (GMWB), if the contract value remaining after withdrawal is less than \$2,000, any withdrawal will be treated as a total withdrawal and the withdrawal value will be paid and the contract will terminate.

† Charges are expressed as an annual percentage of the average daily net assets of the variable investment options.

Jackson[®] is the marketing name for Jackson Financial Inc. and Jackson National Life Insurance Company of New York[®].

This material is authorized for use only when preceded or accompanied by the current contract prospectus and underlying fund prospectuses. Before investing, investors should carefully consider the investment objectives, risks, charges, and expenses of the variable annuity and its underlying investment options. This and other important information are contained in the current contract prospectus and underlying fund prospectuses. Please read the prospectuses carefully before investing or sending money.

Jackson, its distributors, and their respective representatives do not provide tax, accounting, or legal advice. Any tax statements contained herein were not intended or written to be used and cannot be used for the purpose of avoiding U.S. federal, state, or local tax penalties. Tax laws are complicated and subject to change. Tax results may depend on each taxpayer's individual set of facts and circumstances. You should rely on your own independent advisors as to any tax, accounting, or legal statements made herein.

The latest income date allowed on variable annuity contracts is age 95, which is the required age to annuitize or take a lump sum. Please see the prospectus for important information regarding the annuitization of a contract.

In certain states, we reserve the right to refuse any subsequent premium payment.

- ¹ Total annual fund operating expenses are calculated as an annual percentage of the average daily net assets. These are expenses deducted from fund assets, including management and administration fees and other expenses. This range is based on the estimated expenses reflected for each of the portfolios in the current prospectus and subsequent prospectus supplements.
- ² Select up to a maximum of 99 investments and adjust options or allocations up to 25 times each contract year without transfer fees. To prevent abusive trading practices, Jackson restricts the frequency of transfers among variable investment options, including trading out of and back into the same subaccount within a 15-day period.
- ³ The standard death benefit is equal to contract value on the date of the claim and does not include any additional guarantees. The standard death benefit terminates if contract value falls to zero.
- ⁴ Systematic investment programs do not assure a profit or protect against loss in a declining market. They involve continuous investing regardless of fluctuating price levels. You should consider your ability to continue investing through periods of fluctuating market conditions.
- ⁵ If fixed account restrictions are imposed, the owner may elect automatic rebalancing, but the 1-year fixed account may not be included in the allocation.
- ⁶ Add-on death benefits terminate if the contract value falls to zero and upon spousal continuation.
- ⁷ Preselected death benefit is available on nonqualified and IRA contracts only.
- ⁸ Add-on benefits are available for an extra charge in addition to the ongoing fees and expenses of the variable annuity. Only one add-on living benefit and one add-on death benefit may be elected per contract. Once elected, benefits may not be canceled or changed; please see prospectus for specific benefit availability. The long-term advantage of the add-on benefits will vary with the terms of the benefit option, the investment performance of the variable investment options selected, and the length of time the annuity is owned. As a result, in some circumstances the cost of an option may exceed the actual benefit paid under that option. For annual benefit-based charges, the total annual charges are calculated as a percentage of the benefit base, and deducted monthly and upon termination on a pro rata basis across the variable investment options. For Flex DB NY, a portion of the charge is calculated as a percentage of the GWB and a portion is calculated as a percentage of the GMWB death benefit. For the

annual asset-based charges, the charges are expressed as an annual percentage of the average daily net asset value of the variable investment options. On each fifth contract anniversary following the effective date of the endorsement, the company reserves the right to increase the charge subject to the maximum increase amount and maximum benefit charge stated in the contract supplemental data pages. If the contract value falls to zero or at the time the benefit is terminated, the charge will be discontinued.

⁹ MarketGuard Stretch[®] is available on nonqualified contracts only. AutoGuard[®] 5 and MarketGuard Stretch are available through age 80. For MarketGuard Stretch owners age 70 or less at election, the benefit may be elected no more than five years after the death of the original owner. For owners age 71 through 80 at election, the benefit may only be elected before the first stretch RMD is required. The timing and amounts of withdrawals have a significant impact on the amount and duration of benefits. The closer you are to retirement the more reliably you may forecast your withdrawal needs before you reach the ages at which certain benefit features are locked in. Conversely, the younger and further from retirement you are, the less reliable such forecasts may be. Consult your financial professional regarding the amount of money to invest, the age of the owner/annuitant, and the value the potentially limited downside protection of a guaranteed minimum withdrawal benefit (GMWB) may provide.

¹⁰ The highest anniversary value death benefit is available through age 79 at election. The return of premium death benefit is available through age 85 at election. The closer you are to age 85 when your variable annuity contract is issued, the less advantageous it would be to select an add-on death benefit. Death benefits must be elected at the time of purchase and, once elected, may not be canceled or changed. The long-term advantage of add-on benefits will vary with the terms of the benefit option, the investment performance of the variable investment options selected, and the length of time the annuity is owned. As a result, in some circumstances the cost of an option may exceed the actual benefit paid under the option. Death benefits terminate if the contract value is reduced to zero and upon spousal continuation.

¹¹ There may be periods when Jackson restricts the amount of premium payments into and the amount and frequency of transfers between, into, and from any fixed account option. Jackson reserves the right to close any fixed account option and to require transfers from a fixed account option. If the transfer restriction is imposed, then transfers from the 1-year fixed account in the first contract year may not exceed one-third of the value of the fixed account; if the maximum transfer amount has been transferred in the previous contract year, in the following contract year transfers may not exceed one-half of the value of the fixed account. If the maximum transfer amount has been transferred in both of the two prior contract years, the remaining value of the fixed account may be transferred the next contract year. Transfers may not begin until 12 months after the last transfer. If the restrictions are imposed, the owner may elect automatic rebalancing, but the 1-year fixed account may not be included in the allocation. If automatic rebalancing is selected in combination with DCA (if available), the premium transferred to the DCA designated options will be rebalanced at the elected rebalancing frequency to maintain the elected designated option allocation percentages. Any allocation change request received after the contract has been issued must specify if the requested change applies to DCA and/or rebalancing allocations. The interest rate credited to the fixed account is backed by the claims-paying ability of Jackson National Life Insurance Company of New York. Withdrawals from a fixed account prior to the end of the fixed period may be subject to withdrawal charges and market value adjustments, where applicable, which may reduce the contract value. Market value adjustments do not apply to the 1-year fixed account option.

Guarantees are backed by the claims-paying ability of Jackson National Life Insurance Company of New York and do not apply to the principal amount or investment performance of a variable annuity's separate account or its underlying investments. They are not backed by the broker/dealer from which this annuity contract is purchased, by the insurance agency from which this annuity contract is purchased or any affiliates of those entities, and none makes any representations or guarantees regarding the claims-paying ability of Jackson National Life Insurance Company of New York. Perspective Advisory II[®] variable and fixed annuity (contract form numbers VA790NY, VA790NY-FB1) is issued by Jackson National Life Insurance Company of New York (Home Office: Purchase, New York) and distributed by Jackson National Life Distributors LLC, member FINRA. This contract has limitations and restrictions. Jackson issues other annuities with similar features, benefits, limitations and charges. Discuss them with your financial professional or contact Jackson for more information.

Firm variations may apply.
